

Gaku's Play Guide

A white horse is your horse.

When you see a race on the LCD, a white horse is you. That is, if the white horse wins, you win the game.

You have three kinds of race -- Grade III (GIII), Grade II (GII), and Grade I (GI). When you win a GIII, you go on to GII and GI. The winning GI leads to a bonus round!!

The Background: The track or the stable

In the normal game, you see horses either on the track or in the stable.

On the track	
In the stable	

Pay attention to the movement of horses -- it may be a sign for an oncoming prize. Also, Pay attention to objects on the lawn, such as flowers.

Watch the amount of fodder in the bucket! The more it is, the better chance to win you have!

Special Machine Actions

A legendary trainer: when he appears on the LCD, it leads you to win the races!

A photo finish: When the race is so close, it is going to be a photo finish!

When you win a "replay" three times in a row, you are about to win a big prize!!
