What's the Super Big Bonus? What's the Normal Big Bonus?

Tell me, Gimmy, about Super and Normal Big Bonuses.

"Select": "Enter": "Back"

A Super Big Bonus is a prize that offers a lot of credits.

Doggy Jam tell you which reel to stop, picking up the chili from one of three boxes.

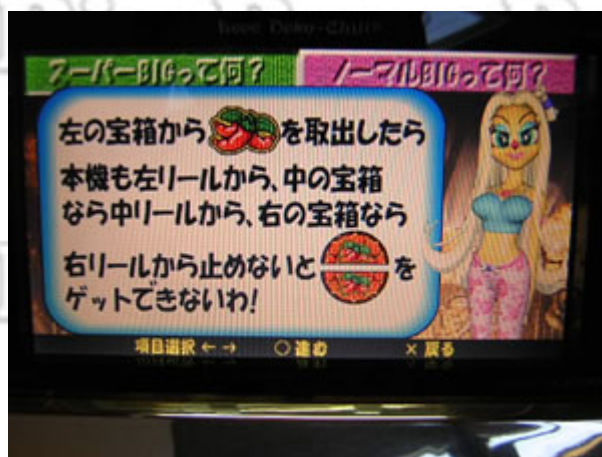

"Select": "Enter": "Back"

The right, middle, and left boxes correspond with the right, middle, and left reel.

"Go to next page"

"Select": "Enter": "Back"

When the chili comes from the left box, you stop the left reel first. When the chili gets out of the right reel, you shoot the right reel first. Otherwise, I can't win the Big Chili (15 credits).

There are two important points.

"Select": "Enter": "Back"

When the chili comes from the left box, you shoot the Big Chili on the left reel first. However, the chili comes up from the middle and right boxes, you should follow the rule.

"Select": "Enter": "Back"

You should stop the reel that corresponds with the box first, and shoot the Big Chili on the left reel.

During the Super Big Bonus, you can avoid a Jac-in by stopping the reels from right to left. It's very easy -- no need to perform the eye-shooting.

"Select": "Enter": "Back"

The normal Big Bonus also offers a lot of credits!

"Select": "Enter": "Back"

But, a little sad because the treasure box is only one -- you don't know which reel to stop.

What's CT? How to play CT? Earn a perfect score!

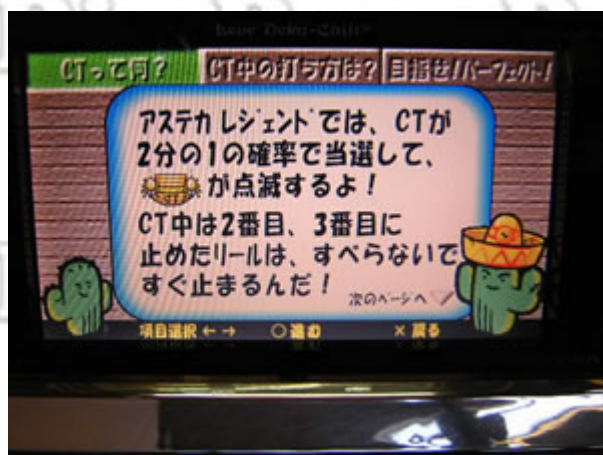

Cactus Brothers

"Select": "Enter": "Back"

CT (Challenge Time) means a game mode that you may enter after a bonus round.

"Select": "Enter": "Back"

You may enter the CT at the rate of 50%  
-- an indicator will illuminate.  
During the CT, you can get the exact symbol you shoot at the second and third shots.

The CT ends when you:  
play 150 games;  
earn 201 credits; and  
win a Big Bonus.

"Select": "Enter": "Back"

If you have played "Azteca (the previous model), you know about this -- the Big Chili bring you 15 credits!

"Select": "Enter": "Back"

The Big Chili is made of two symbols on the left reel. You nail it by eye-shooting and win 15 credits.

You can win a Big Bonus during the CT. Therefore, you better play the CT as much as 150 games. (This means, during the CT you never lose your credits, so, you should prolong the CT as many games as you can."

"Select": "Enter": "Back"

Be careful not to finish the CT earlier by winning the Big Chili too many!

"Select": "Enter": "Back"

It is efficient if you earn about 190 credits in an early period and keep playing the rest of games without any loss. You should shoot the Big Chili at the last game to get the maximum gain.

The following description is for advanced players.

"Select": "Enter": "Back"

To maximize the gain from the CT, you need to have exactly 200 credits at the end of the 149th game and to shoot the Big Chili at the final game. We'll explain how to do this.

"Select": "Enter": "Back"

Shoot the Big Chili until the window light turns orange. Get the Big Chile 16 times in a row -- this earns 192 credits.

When the window light turns yellow, shoot the Sombrero twice. On the left reel, aim at the single white <7>, on the middle reel shoot the sombrero next to the chili. This makes your credits 200, which is the high limit.

"Select": "Enter": "Back"

Shoot the cactus until the 149 game. On the left reel, aim at double white <7>. On the middle reel, nail the double cactus. On the right reel, shoot the cactus right next to the white <7>.

"Select": "Enter": "Back"

You finish the 150th game, shooting the Big Chili! This way you can get the maximum gain of 212 credits!
