Game

You insert three tokens, hit the spin knob, and push the reel stop buttons. This sequence is called a "Game." Let's say, "You may need 20 games to get a Big Bonus" -- This means you need to repeat this sequence 20 times until you win a Big Bonus

3 Bet and 5 Wining Lines

You put in three tokens or credits (Max Bet) to spin the reels. A max bet gives you five lines to get a winning combination. Five winning lines are:

Winning Combinations and Prizes

You can bet 1 credit and spin the reel. In this case you have only one winning line -- the horizontal middle. When you bet two credits, you have three winning lines -- three horizontal lines. Note that the Max Bet offers you the highest winning rate-- Betting three tokens gives you the rate of 1/241 for a Big Bonus, while betting one token is 1/1489 (data based on a model "Frozen Night"). This means, you get the much better rates betting three tokens at a time than betting one token three times.

Las Vegas offers two principal prizes -- a bonus round and small prizes. A bonus round divides into a Big Bonus and a Regular Bonus, and small prizes consists of the Bell, the Apple, the Cherry, and a Replay. For the details of a Big Bonus and a Regular Bonus, see "[Big and Regular Bonuses](#)" in the section "Pachislo World" on www.bigbearpachisloshop.com.

Likewise, when you have   , you get 15 credits and enter a Regular Bonus.    is the Bell, paying out 8 credits.    is called "Cherry" -- when you have a cherry on the left reel, you win two credits no matter what symbols you have on the right and middle reels.  is a symbol "Jac."    is a prize "Replay" in normal game mode and a "Jac-in" during a bonus round.

Entering a bonus round, you have extra winning combinations.   means you have , , or  on the left reel and  on the right and middle reels.

How to Win?

Understand you never win a Regular or a Big Bonus out of blue -- you must go through a winning process. That is, you play "Normal Games" first, get a "Winning Sign," and move on to "Stand-by Games" that offer you chances to win a Regular or a Big Bonus. For details, see "[How to Win?](#)" in the section "Pachislo World." Also see "[Winning Signs and Small Prizes](#)" to win small prizes.

Winning Signs

To win prizes, you catch winning signs displayed on the roulette and shoot the right symbols. In other words, you need to know a variety of machine actions that represent winning signs for oncoming prizes. Here are examples.

Fruit Game

You win... ?

Las Vegas has a special game mode, called "Fruit Game."

Fruit Game

Fruit Game is a game mode that gives you direction -- you follow it and win

8 credits automatically. The direction is simple -- the machine tells you which reel to stop. You just stop the reel carelessly, but the machine leads in the winning symbols.

Fruit Game may last 6 or 30 games, depending on your luck.

The middle of the roulette light is illuminating -- you stop the middle reel.

Also, the machine tells you to stop the middle reel by turning on the reel light.
